TREATMENT UNITS**

# WATER TREATMENT UNITS

---

## ABSOLUTE ZERO

---

Zero Chemicals. Zero Emissions.

Clean, safe water without impact on the environment.

A Truly Sustainable method to treat effluents.

---

## PLUG n PLAY MODULES

---

Plug-and-play installation.

Rapid deployment.

Flexible layout that adapts to any environment and grows alongside your needs.

---

## SMALLER FOOTPRINT

---

Rapid treatment, smaller footprint.

Just a quarter of the space.

Treatment time cut down to a few minutes from half a day, eliminates the need for holding tanks.

---

## LEAN OPERATIONS

---

Lower CapEx and faster throughput.

Bare-bones maintenance, lower OpEx.

The most cost-effective water treatment from day one.

---

## INTELLIGENT TREATMENT

---

Unrivalled IoT-enabled technology.

Minimal human intervention.

Every unit is built around proprietary processes and real-time control that delivers smarter water treatment.
